23. TENDER VEHICLES (See VSR 34)

All tender vehicles that agree to be official tender vehicles and be registered as such will travel within the field, except for the final sweep vehicle which will travel at the end of the field. It is compulsory for drivers of tender vehicles to attend the briefing on Thursday the 11th of March 2021 at 16h.00. Should a tender vehicle driver not attend the briefing, this vehicle will be removed from the list as an official tender vehicle. While moving through the field, tender vehicles will pick up any competitors who have broken down.

There will be sufficient official tender vehicles to cover the whole field.

Competitors will be required to sign a declaration acknowledging that they have been loaded by an official tender vehicle. They will also be required to indemnify both the organisers and the tender vehicle driver for any loss or damage. Any competitor who is picked up by a tender vehicle will not qualify as a finisher of the event.

It is the sole responsibility of the competitor to ensure that his/her vehicle is safely and securely loaded, and that the GPS logger is switched off.

Tender vehicles that are not providing a specific service to the organisers and officially registered in this regard must keep off the route, bearing in mind that "their" competitor runs the risk of being disqualified if they – the accompanying vehicle – are reported to be in the field. (As per VSR 33 (a) (xi). Please make sure you understand this, it will be enforced. If a rider needs additional support during the event, please apply to the COC in writing together with your completed entry form stating the reasons therefore. No special requests regarding this will be entertained after that date.

Note: These restrictions are designed to reduce congestion on the route in the interest of safety. Please see VSR 34(a) for the definition of a tender vehicle.

24 SAVVA Indemnity and card See VSR 8

Limited facilities to issue indemnities will be available at documentation. Should you not have an indemnity, contact your club for issuing of indemnity.

25 Additional front and rear light. See VSR 17 (b)

SAVVA require that all motorcycles on the DJ be fitted with additional lighting. A red cycle light at the rear (non-flashing) must burn while on the event. In the interests of safety, please fit additional front "white" light (non-flashing), the largest/most visible light you can find. It is strongly recommended that this be an additional light to head light fitted for that period. Ensure that the battery capacity is of such, that it can sustain additional lighting, as well as the brake light. Please note that a flashing light is not allowed as the only vehicle that may use a flashing red light is an ambulance. **The scrutineers will be strict on this requirement.**
